SKILLS

- Python
- Django
- C programming
- Data Structures
- HTML
- CSS
- Java Script
- DBMS

AWARDS

Badges from IBM:

EXPERIENCE

❖ Storing useful data using moving object detection:

This project is to create a database, through image processing, which stores only the moving items data in the database. Instead of storing all the unnecessary data while recording through cc cameras. Thus it saves a lot of storage space in the databases.

❖ IBM WATSON -CHAT BOT BUILDING :

In this I developed a chatbot which is deployed in a website through wordpress, which interacts with the customers in giving suggestions and their conversion is stored in the IBM CLOUD.

❖ Random password generator:

This is a website created using Django which provides some random passwords to its users of their choice in required length.

INTERESTS

- Python Developer
- Data Scientist

❖ **IOT WORKSHOP:**

Participated in Megathon's Two days Internet Of Things workshop on 8th-9th September at IIT Hyderabad.
